## Workday 11-13-21

We had 10 crew leaders and 3 under instruction for this workday. They were Donald, Curt, Bill, Eric, Dave, Andy, Scott, Fred, Geoff, as well as myself, and our trainees Robert, Vicki, and Todd. We led 43 volunteers to remove berms, address erosion issues, and trash social trails. Our Trail Ambassadors, Rena, Jay, and Karen, were able to show them where to park and process our volunteers quickly so that we could get them out on the trail performing maintenance. Bill and Geoff, along with Todd as their trainee, worked on debemming and erosion issues from the bottom of Pigeon Hill to the switchback. Andy and Eric, along with trainee Robert, worked on closed social trails in the area on top of Pigeon Hill before, around, and after the new fencing. From there they went to the switchback going up Little Kennesaw closed social trails and worked on the erosion on the switchback. Donald and Dave, along with trainee Vicki, worked on the erosion going up Little Kennesaw just past the park bench. From there they split into two groups one addressing water flow issues, led by Donald; and the other, led by Eric, closing social trails as they went up the mountain. Scott monitored the parking lot while we were on the mountain, Fred documented the work we did, and I roamed between groups monitoring their adherence to the workplan. Thanks to the assistance of David and Zoe of the Park's Maintenance Department in having the work area cleared and the fencing in place. This allowed us to accomplish everything on the workplan. Our volunteers from Hillgrove High School ROTC department, Wheeler High School, Mount Paran, Kennesaw State University, the Atlanta Outdoor Club, and several individuals contributed greatly to the successful workday.

On Friday Mike and Bill prepared the trail for Saturday.

Our next workday is December 11, 2021.

Thanks to everyone for your help.

## A Special Thanks!

Each year we have various groups who come out and help us. Henceforth, we will make every attempt to list your group here for the current/past fiscal year. If you are participating as a group, be sure to let us know when you are registering!

Following is a list, in alphabetical order, of the groups who participated during Fiscal 2019 (October 2019-September 2020 and Fiscal 2021 (October 2020-Present):

## Grant Writer Needed

One of the ways of getting funds for the various activities supported by the Friends/KMTC is to receive grants. To do this, the Friends (and KMTC) need the expertise of someone who is versed in completing grant applications. If you are interested in this worthwhile endeavor, please contact Scott Mackay - [President@TheFriendsOfKMNB.onmicrosoft.com](mailto:President@TheFriendsOfKMNB.onmicrosoft.com). In the past the Trail Club has successfully applied for grants of \$10,000 and more. One of these successful efforts provided the funds to build the bridge across John Ward Creek on the Kolb Farm West Trail! Other grants that the Trail Club successfully applied for included the funding of the Ticket-To-Ride program providing transportation, program and materials to introduce grade school children to the park. So this is a very important and worthwhile position on the Friends Board. Our previous grant writer retired after 15 years of successful service to the Trail Club. We look forward to hearing from anyone interested in this volunteer position if you would more details/information about this position.

## 2021/2022 Fund Raising

Your volunteer hours help greatly for the many projects we do in the park and we greatly appreciate you contributing your “sweat equity” alongside our 80+ staff volunteers who routinely support each event. We are a non-profit all volunteer organization. However, like any business, we do have bills to pay.

Many of our projects are funded by the park or through grants we apply for. These funds are typically targeted for specific projects and do cover the big expenses such as rocks, stone dust, dirt, wood beams, bridges, fences, and such. But, after all the big stuff is paid for, we still have need to cover our day-to-day operating expenses for things like saw blade sharpening, fuel, tool repairs, equipment maintenance, work gloves, bug spray, drinking water, snacks, and porta-potties, along with basic business expenses - e.g. insurance. For these expenses, we rely on your donations.

Each year we kick off a new round of fund raising and this is the 2021/2022 big “ask.” We need your help with this, even small donations help. We will conclude this drive at the end of FY 2022 (September, 2022).

**As we approach our 19th year in operation, we ask you to please think ‘20’, like \$20.. \$40.. \$60..... \$200... \$2000. All donations to the Trail Club support our work at the park, and are tax deductible.**

We are a nationally recognized club - having been presented the highest award in the National Park Service in 2014, “The Hartzog Award for Volunteer Group.” There are several ways to donate:

- Use Guidestar on the bottom of our home page on the Trail Club website <http://www.kennesawmountaintrailclub.org>
- Subscribe to Amazon “Smile” where they will donate to us based on your purchases <https://smile.amazon.com/> - look for KEMO Trails Corps
- Send a tax deductible contribution to:

## 11/24/21 - Lincoln Presentation!

Photos by Fred Feltmann

### Lincoln - Thanksgiving Proclamation

Larry Elliot portrayed the 16th President, as he told the story of Lincoln's Thanksgiving proclamation. He made his presentation twice on 11/24/21. The location was the Visitor Center Patio, because of COVID protocols. The first presentation at 10:30 am was a mite cold - in the 40's, but the audience quickly warmed to the portrayal. At the end of the Thanksgiving Proclamation portrayal, Larry provided an encore - a portrayal of Lincoln's Gettysburg Address. It was a truly inspiring presentation and the audience was very appreciative of Larry's time he spent with us. There were approximately 80 participants for Larry's 2 presentations today.

## A Trail Ambassador's Day In The Park

Janie, Kathy and I were joined by two visitors for our 11 am Sunday (11/21/21) Environmental Trail Hike.

The trail was dry and in excellent condition. Staff, volunteers and Scouts are doing a great job keeping the trail well maintained.

We made several stops along the trail:

- Running and leaping deer across the ridge near the trailhead.
- Briefly discussed the history of the Park including historical preservation, recreational opportunities, Civilian Conversation Corps, et cetera.
- Investigated trail signs marking Poison Ivy and Poison Oak.
- Spent a few minutes discussing the original settlers and farming in the area after the War.
- Observed the differences between a new vs. mature forest.
- Overall we enjoyed the beauty of a forest in transition between Fall and Winter.

I am looking forward to assisting with future events.

I hope everyone has a blessed and happy holiday season.

Cheers,

*Cam Graham*

PS Check herein for the monthly events conducted by the NPS staff (and sometimes supplemented by our very capable Trail Ambassador staff).

## NPS Staff To The Rescue!

The newest maintenance guys (David and Zoe) at the Park have solved the nightmare challenge of the old and ruined fences on the higher reaches of the Little Kennesaw trail. The most difficult point on the trail system to access. Long carry-in and out from either direction. A lot of railings, old and new, had to be carried in each direction on this one. Pics are below. The two mile marker is shown.

Thanks!

## Another Day In The Life Of A Trail Ambassador - Volunteer Report

Approximately 60 students and six teacher/chaperones from Belmont Hills Elementary took part in a Park sponsored field trip. Photos below are from the two environmental hiking experiences provided by KMTC volunteers. (Deer sightings, native birds, creek life, origin of the forest, early settlers, et cetera).

Volunteers included Mark Miller, Cameron Sanders, my self, James Atkins and Tom Taylor; NPS/KEMO Ranger Jake Boling participated, as well.

Other field trip experiences included life of a soldier and museum scavenger hunt. The school concluded the visit with a picnic lunch.

*Cam Graham*

*PS - I received a couple of notes from NPS staff and others thanking Cam for his support of the school events and Park-sponsored hikes! Thanks for a job well done! Fred*

## NO STUB

You're walking down the trail and all of a sudden yell out - OOOH!

A fellow hiker asks if you stubbed your toe. This stuff happens - right.

I'm pretty careful walking and I sure don't want to fall down, but sometimes I'm surprised by things.

Mainly if you go to a ticketed event you don't get a ticket stub - I guess that's due to the fact that you don't have a ticket to be torn apart and get the remaining half or stub. This may be a moot point to many readers, but it surprised me. Order tickets online and get a QR code or maybe just have your name added to a list at the venue; I don't know, but I do think that it is a major shift in our culture. The stub is another tangible item that we no longer have to remember an event that was attended.

It seems ridiculous to think about something so simple as a ticket stub. Especially since I'd been to many big name concerts over the years and I guess that I lost all those old ticket stubs - in fact when I talked to a friend about this he said that he'd found an old Beatles ticket stub and sold it for \$180.- hey, I went to that concert ( memory - no stub ).

So the passing of tickets is moving along, just like being asked "Do you want a receipt." It's just a waste of resources.

The good news is that the memories are the best thing. Walk on a trail and bump your foot, you'll remember that. You don't need a ticket punched or torn in half to remember the work at or the experience of Kennesaw Mountain.

Things will get lost over time, pictures may get purged from your device and memories will fade away- so don't worry about the stub and keep enjoying the experience.

Happy Holidays!

*Doug Tasse*

This was a reach, Doug, The difference between a "stub" and a "stub." But good segway.
